**Country** USA  
**Employees** 493  
**Websites**

to elevate customer experience

-

IT security is a top business priority for enterprises, government organizations and service providers around the world. However, limited visibility into data traversing physical and virtual networks, as well as public and private clouds,

class capabilities and customer commitment. I knew Jabil was the right partner to take us into the future.”

### **Perfecting the Manufacturing Process**

For Gigamon, Jabil’s focus on stability and continuous improvement were key to devising a broader strategy for scaling Gigamon’s manufacturing operation. The company first relied

product orders, so we're always
